Dear Attorney Johnson,

My husband and I want to thank you for taking our bankruptcy case. It is so refreshing not to be in debt. October 30, my husband turned 62, this December I will be 59. This is the first time in years we have been completely out of debt. I must tell you it does feel wonderful! However, I am looking forward to the day I will be financially able to repay these debts. I am not proud that I have bankrupt, but I am at peace knowing that I had no other choice. If there had been another way out for us we certainly would have much rather taken it, but there wasn't. My husband and I will always appreciate you for what you did for us. To be honest, you gave me my sanity back and you gave me hope. I have always valued life and for the most part treasured mine. However, I will admit my financial static was such that the word suicide did cross my mine several times. All of these bills were driving me crazy. A person never knows to what extent they help someone unless they choose to tell. I have chosen to tell you to what extent you have helped me. My husband is at peace with this as well. It would be safe to say that you and the court system gave the both of us our freedom and our joy. "Thank you once again from the both of us."

I will never forget how attentive you were to us during this trying time. You always returned my telephone calls and took care of any problem or concerns my husband and I had. I will always feel you were under paid. I know you will be putting our files away because this case is now closed, but my husband and I want you to be our attorney if we should ever need one. Because in our opinion, "**You Are the Best!**"

May God continue to bless you and may you be successful in everything you choose to do in life. Please take this small check and buy you a little something to remember us by, and every time you look at the small gift remember people like yourself do make a difference. You do a lot of good! Just a lot of times you are over looked and people fail to tell you just how important you really are.

Forever in your debt
Your two friends,
